

Cancer Research Inspiring Future Scientists Program (CRISPr)

June 2 – August 8, 2025

CRISPr provides St. Louis area high school students an entry into academic research. Participants receive a generous stipend, mentorship, training, and access to a world-class community and environment. No previous research experience is required. Students from historically underrepresented backgrounds are particularly encouraged to apply.

Program Highlights

- \$4,800 stipend
- 10 weeks of mentored, hands-on research in a Washington University School of Medicine/Siteman Cancer Center laboratory
- Professional development opportunities, weekly seminars, and social programming
- Research presentation at closing symposium

Application Deadline:

March 31st, 2025
